Subject: Hope Agricultural heritage Antique Club September Update

Hi Everyone,

Yes, I am still alive. OH, where did the summer go? It seems that I haven't stopped, and the summer blew by. "They say as you get older, time moves faster." Gee, I can't handle the speed now, and I'm getting older, so how do I slow things down? Any suggestions?

Yes, part of the summer was our Antique Machinery Show. That's right, it was the RAINY weekend. Big yuck.

Friday was move-in day. Lots of rain and the snow guys were getting stuck. Greg and my young Owen were really busy pulling trucks out of the muck , and even our flea market folks got stuck.

The sun came out around supper time, and we hosted a pizza supper. Saturday brought on the sun and a drying wind—a perfect day. The visitors came out, about 260 paying attendees compared to last year's 190. A very good increase! We received great feedback on the enjoyment of our visitors.

Sunday,,,,,, RUN....., the rain is coming. Yes, the forecast of more storms chased the snow guys off the field before they got stuck again, and it basically washed us out. We just moved stuff back to the AMC. More on the show after we have a debrief.

STOP THE PRESS.

Earl & John Bickle just sent me these shots:

The delivery of our newest treasure. It is a 1929 Chevy Truck called a Maple. (No, the name is not related to the wood it's made of, just a name like Corvette or Traverse.) Funny, I think this truck was a one-and-a-half ton, made by GM. More on this as I get to

see the truck. We can all see it at the open

house.

OPEN HOUSE – September 21, 2024

Last chance to see our antique machinery this year, including this new truck and new working tractors.

**ANTIQUE MACHINERY CENTRE
OPEN HOUSE WEEKEND!**

September 21, 2024

Open 9:30 am Till 3:00 pm

Visit our working museum of Antique Farm Equipment, snowmobiles, and everything in between. See our new Hit & Miss Grinder display.

Free entrance, free wagon rides, food available.

Lots to see indoors and out.
